Today's gospel reminds us that the message of Christianity is not always a popular one. Sometimes we are called upon to speak a hard message; a challenging message; a confronting message. The message of the gospel frequently confronts our popular culture and accepted social practice. It often contradicts the expedient decisions of our political leaders. There is a responsibility on us to speak the hard message of the gospel even at the risk of unpopularity and even in the face of threat. The Christian heroes of our time are those who call leaders to measure up to the demands of the gospel.

FROM THE PARISH PRIEST

Dear Parish Family,

I don't often watch the myriad of soap operas that are on our TV screens. I have been watching with interest the storyline unfolding with Irene's character on 'Home and Away'. Irene has been diagnosed with Alzheimer's and the show has been following incredibly sensitively and, it would seem, with some expertise, the disease from a very real and human perspective. It follows a plot line of course, the sensitivity around the portrayal of Irene's and then her family's and friends' struggle to come to terms with the reality gives great insight. All of it from anger to fear, denial to acceptance portrayed. I love that they are trying to help us, maybe those with the disease, families supporting those with it and what that might mean, to live with the disease and the slipping away that comes with it. For me the operative words have been *live with*, a journeying with rather than a fight against the reality. Again, I don't normally recommend soaps. However this has been well worth my time and maybe it could be worth yours too.

A movie of a similar vein released in 2014 is 'Still Alice' starring Julianne Moore and Liam Neeson in a 2022 film called 'Memory'. All worth the effort. My firm favourite though is the 'Notebook'. 'Still Alice' is based on a true story, so with more key insights.

I had a wonderful privilege early in my priestly life when I was asked to be a chaplain to the Catholic people living in a care facility specially designed for those living with dementia. The design as I remember was unique, shaped like the spokes of a wagon wheel. Each spoke a unique living experience with gardens, chickens, birds and pets. I remember that as the dementia or Alzheimer's progressed, the individual's journey changed and they often returned to past experiences and younger days. I remember having to learn the first line of the Lord's Prayer in several different languages which helped keep them connected to their faith, for many a pivotal and integral stay of their lives, for all their lives. Receiving communion was important to them and to their families – it was a privilege to help that.

As we journey to the end doctors will often say the last thing to go is our hearing – so be careful if you reveal

LIVING WITH DEMENTIA

1. Agree, never argue
2. Divert, never reason
3. Distract, never shame
4. Reassure, never lecture
5. Reminisce, never say "remember"
6. Repeat, never say "I told you"
7. Do what they can do, never say "you can't"
8. Ask, never demand
9. Encourage, never condescend
10. Reinforce, never force

Huey, 1996

secrets around the death bed of your parents from your 'wild' teenage years. I would add the very last thing that remains for Catholics is faith – the desire for an anointing and the reception of the sacraments stays, long after the person we love has disappeared into the mist that is dementia. My lived experience with some at the end who had not spoken or recognised a loved one for years, their final words could be heard in the midst of the Lord's Prayer or Hail Mary. Faith leaves an indelible mark.

Greg, Parish Priest.

FROM OUR SAFEGUARDING PROMOTERS

This week, we refer to the negative influence of AI on vulnerable people with eating disorders. Artificial Intelligence (AI) uses mathematically rigorous instructions called 'algorithms' to be followed in calculations or other problem-solving operations, especially by computers in data processing.

AI can negatively impact eating disorders in several ways, especially through its role in shaping online content and influencing body image. Social media platforms, powered by AI algorithms, often promote content based on user behaviour. This can lead to the overexposure of images and videos that idealise unrealistic body standards, weight loss trends, or "thinspiration" content. Such exposure can trigger or worsen eating disorders like anorexia, bulimia, or binge-eating disorder, especially among vulnerable individuals.

Significantly, AI especially influences young people's body-conscious vulnerability. These AI-driven portrayals can distort self-perception, increase body dissatisfaction, contribute to low self-esteem and promote mental health issues.

Without proper safeguards, AI can amplify harmful messages related to body image and dieting, making it crucial to implement ethical AI practices and content moderation to protect the mental health of vulnerable people.

A Prayer for Pilgrims of Hope

O God, Source of all Life,
you created earth as our home
and us in your image, out of love.
Set our hearts astir with that same love,
that we might build a culture of encounter
and systems that justly serve
those living in homelessness
and mental ill-health.

Jesus our Brother,
you noticed those living on the edge,
listened, healed and served them, out of love.
Move us from our embarrassment or discomfort
by those who show us your suffering face.
Instead, may we be taught by them,
offer our loving friendship
and share your good news together.

Holy Spirit, Source of all Hope,
you inspire our relationships
with transforming power, out of love.
Deepen our vision and enlarge our hearts
so that the fear and isolation
of homelessness and mental ill-health
may be countered by love's warmth and certainty,
that we might walk together as pilgrims of hope.

Amen.

13 August 2025

Dear Brothers and Sisters in Christ,

Earlier today, the Australian Catholic Bishops Conference released its 2025-2026 Social Justice Statement, *Signs of Hope on the Edges: Serving Homeless People With Mental Ill-Health*.

Each year, the bishops reflect on issues that demand our attention as individuals, as communities, and as a Church. This year's Statement calls us to consider how we accompany those experiencing homelessness and mental ill-health, and how we embody the hope of the Gospel in our response.

No matter our role, whether in parishes, schools, CatholicCare, St Nicholas, or shared services, we are connected by our commitment to human dignity and care for the most vulnerable. Each of us has a part to play.

I encourage you to read the statement and reflect on what it means in your own context: how it speaks to the people you serve, the work you do, and the hope you bring.

You can access the full statement here: [Social Justice Statement 2025-2026](#)

As we consider this call to serve, I invite you to support CatholicCare's [Make a Difference Appeal](#), which will run until the end of August. This appeal directly supports our unfunded community programs, helping us keep food on the table through community kitchens, mobile food services, and support hubs across the region.

We have seen firsthand the difference this support makes in the lives of so many. Every gift, no matter the size, helps us continue to meet the growing need and ensures that those doing it tough in our local communities are welcomed with dignity and care.

Let us continue to check in on our neighbours, open our hearts to the marginalised, and give generously where we can. Even what seems like the smallest act may offer great comfort and hope to someone facing hardship.

And if you yourself are finding things difficult, please know that support is available and you are not alone. Reach out to a colleague, a friend, or one of the many services in our Diocese. You are valued and loved by God.

Thank you for your continued dedication to building communities that reflect the love of Christ.

Yours in Christ

Most Reverend Michael Kennedy
Bishop of Maitland-Newcastle
